

Mathematics Resources

See Topics list from Appendix II for specific areas of focus for interventions. The NJDOE Office of Math and Science Education is developing an aligned diagnostic assessment for each of the cluster areas. You may also choose to use other instruments aligned to these topics.

Interventions (from the US Department of Education *What Works Clearinghouse*)*

Accelerated Math™
Cognitive Tutor
CompassLearning
Destination Math
FUNdamentally MATH®
I CAN Learn® Pre-Algebra and Algebra
Lightspan Achieve Now
Pearson NovaNet
PLATO
Successmaker

Language Arts Literacy Resources

Diagnostic assessments are readily available and are sometimes developed in concert with intervention programs. When determining the appropriate use of diagnostic assessments for specific students, please consult with your reading specialist.

Interventions (from the US Department of Education *What Works Clearinghouse*)*

Project CRISS
Success Maker K-8
Fast ForWord
Read 180
Reading Apprenticeship
Accelerated Reading- Grades 4-8

**This is not a listing of endorsed interventions. There are many other programs available, and not all of these programs will work for all students. Any intervention program should be carefully evaluated before, during and after implementation with each student.*
